gabbi Introduces A Brand New Line Of Dog Food

Taste of the Wild is a new line of all-natural food that fits perfectly into the food line-up at gabbi's Boutique.

The *Taste of the Wild* formulas are designed around specific and unique protein sources that are all sourced from food grade suppliers and certified hormone and antibiotic free. While these specialty formulas provide some new alternatives for the Precious Paws with food allergies, they also provide great options for gabbi's

friends who have other special nutritional needs.

For example, the Pacific Stream Canine Formula provides the more sensitive

legged friend's body from the damage of everyday living while also supporting a healthy immune system and overall good health.

Taste of the Wild

The balanced diet that nature intended.

With roasted bison, roasted venison, and a guaranteed analysis boasting a minimum of 32% protein, the High Prairie Canine

dogs with a highly digestible energy source by including smoked salmon supplemented with fruits and vegetables. This formula delivers natural antioxidants to protect your four-

choice for the active dog.

If you are ready to try something new for your Precious Paws, give *Taste of the Wild* a try.

Training Tip: Take Me For A Walk

Some of the best "training" for your Precious Paws might not be the structured "sit, stay and come" stuff we are all used to. Try taking your Precious Paws for a walk.

First, your Precious Paws craves quality time with you, and taking a walk gives you the chance to get some exercise and fresh air with your four-legged best friend.

The added benefit comes in

of wolves or wild dogs and how they interact. They are always on the move and always hunting, and this movement is largely focused around the actions of the alpha dogs or wolves, both male and female.

The "followers" in the pack learn to watch, follow and respond to the alpha leaders lest; otherwise they risk getting left behind to starve or become prey. This is their communication.

friend will stop pulling on their leash because they look forward to taking the walk, and they know what to expect along the way. You might begin to notice that your companion is staying up with you, keying off your movements and taking your cues when you turn a corner or change direction.

Although humans may not think of it this way, we canines call this communication. The added bonus is that you might just find the

the form of communication. If you give any credence to the "dog is wolf" theories, stop and think about a pack

Take your precious paws for walks on a regular basis, and watch what happens. Typically, your four-legged best

"sit, stay and come" stuff easier and more fun!

Get your Precious Paws professionally washed, and benefit the Henderson Humane Society! *The Pet Spa* in the Eastgate Shopping Center will be hosting this event on November 3.

Ready for a new four-legged family member? Dempewolf Ford is hosting an Adopt-A-Thon on Saturday, November 17.

Best In Class: Pet Botanica and Dogswell

Two of gabby's favorite brands were included in a closely watched "best of" list, and - interestingly - in a non-pet-specific category.

Pet Botanica and Dogswell were included in Orca Communications' list of "Best Natural & Organic Products." Included among baby bottles, coffee and compact washing machines, Dogswell and Pet Botanica were both saluted for the

extraordinary results they have been able to achieve while remaining completely natural and organic.

Of course, all of gabby's four-legged friends will do anything for a Dogswell treat, and they love the way Dogswell treats help their hips, their hearts, their skin and their breath.

gabby is especially fond of

Pet Botanica because their "spa" products seem to keep her big bubby, Taylor, smelling fresh for the longest time despite their lack of perfumes. (And, remember, Taylor is awfully proud of his smells!) Meanwhile, Mom likes the way the Pet Botanica cleaning products make gabby and Taylor's clothes and beds clean and fresh with no harsh chemicals.

gabby Knows How To Throw A Birthday Party

Never known as "The Shy One," gabbi's sister, Grace Ann, models the classic Groucho Marx "Big-Nose-&-Glasses" for Halloween.

gabbi threw her first birthday party for all her pals that were born in October, and a great time was had by all!

Chloe Brown models her personalized birthday "necklace"

After donning their per-

sonalized birthday collars, everyone had fun testing the agility tunnel. More romping fun ended with all four-legged honorees treated to "pupcakes" while the two

Max Brown gets ready to show off in the agility tunnel

legged party-goers had cupcakes.

The party ended with the birthday kids receiving a special gift box from gabbi and a loving pat on the head.
